[illegible]

The jingle of keys as the doors are unlocked and opened for another day at Eisenhower Junior-Senior High School . . . the flutter as the flag is raised . . . a quiet chatter which grows louder as students arrive . . . the bell ringing . . . the shuffling of feet echoing down the hall . . . the clicking of locks as a thousand combinations are dialed . . . as these, the sounds of spirit are heard, a day begins.

Each day we are confronted with a challenge which presents a new and exciting adventure. When we look back on this past year we remember some days as spectacular and triumphant. In the cold of the stadium each moment burns with enthusiasm to warm these lasting memories. This same spark of zeal we share will remain to glow in our lives.

Some days were not so spectacular but perhaps more meaningful. Those days were filled with seemingly insignificant incidents—students assisting one another, a teacher arriving before school hours to give special help, friendly smiles on all faces. Now we look upon them as important memories which continue to grow in our lives. These experiences help to meet the challenges given us daily.

The years laying ahead are but a sum of many days such as we now experience. The spirit of Eisenhower will live on and the challenge today is an important opportunity in preparation for the future challenges we will meet later in life. By living with such spirit now we can be assured that it will continue . . . throughout the day.

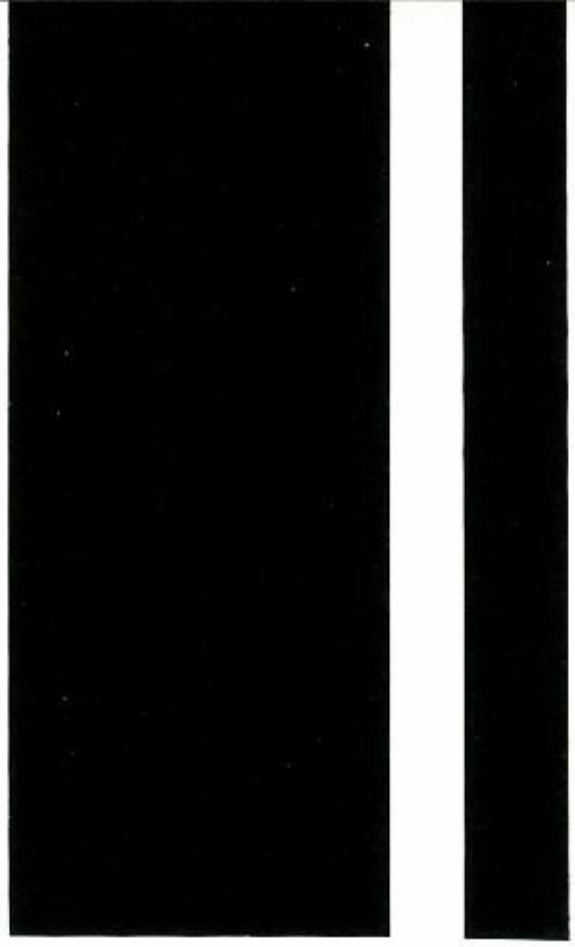

We're from Eisenhower . . .

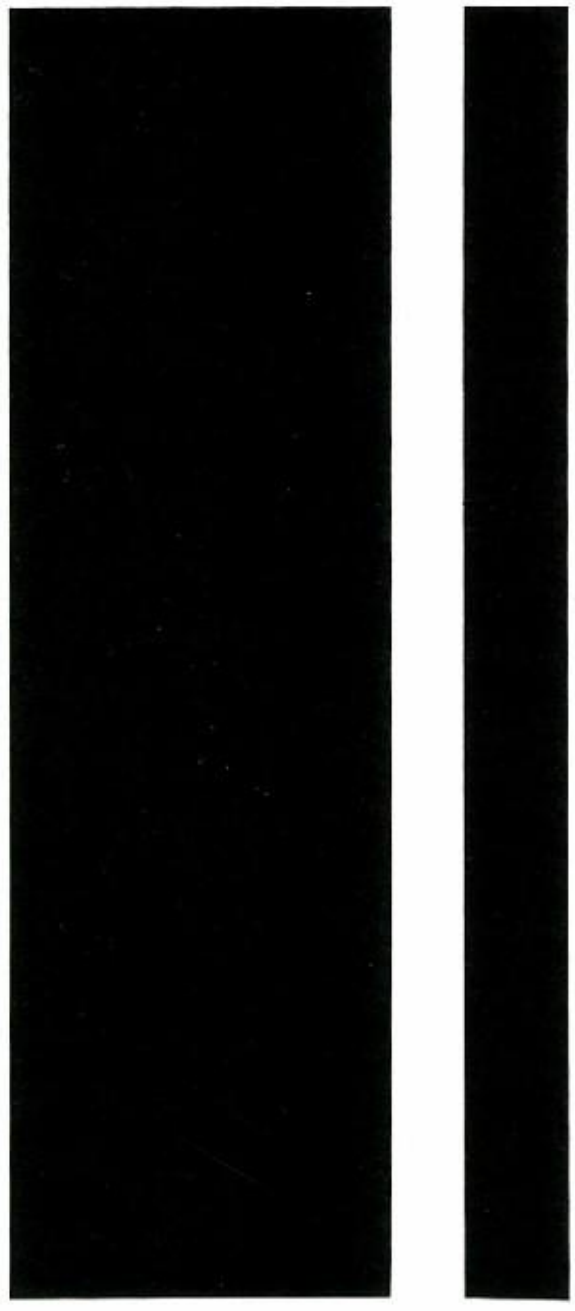

and we're proud . . .

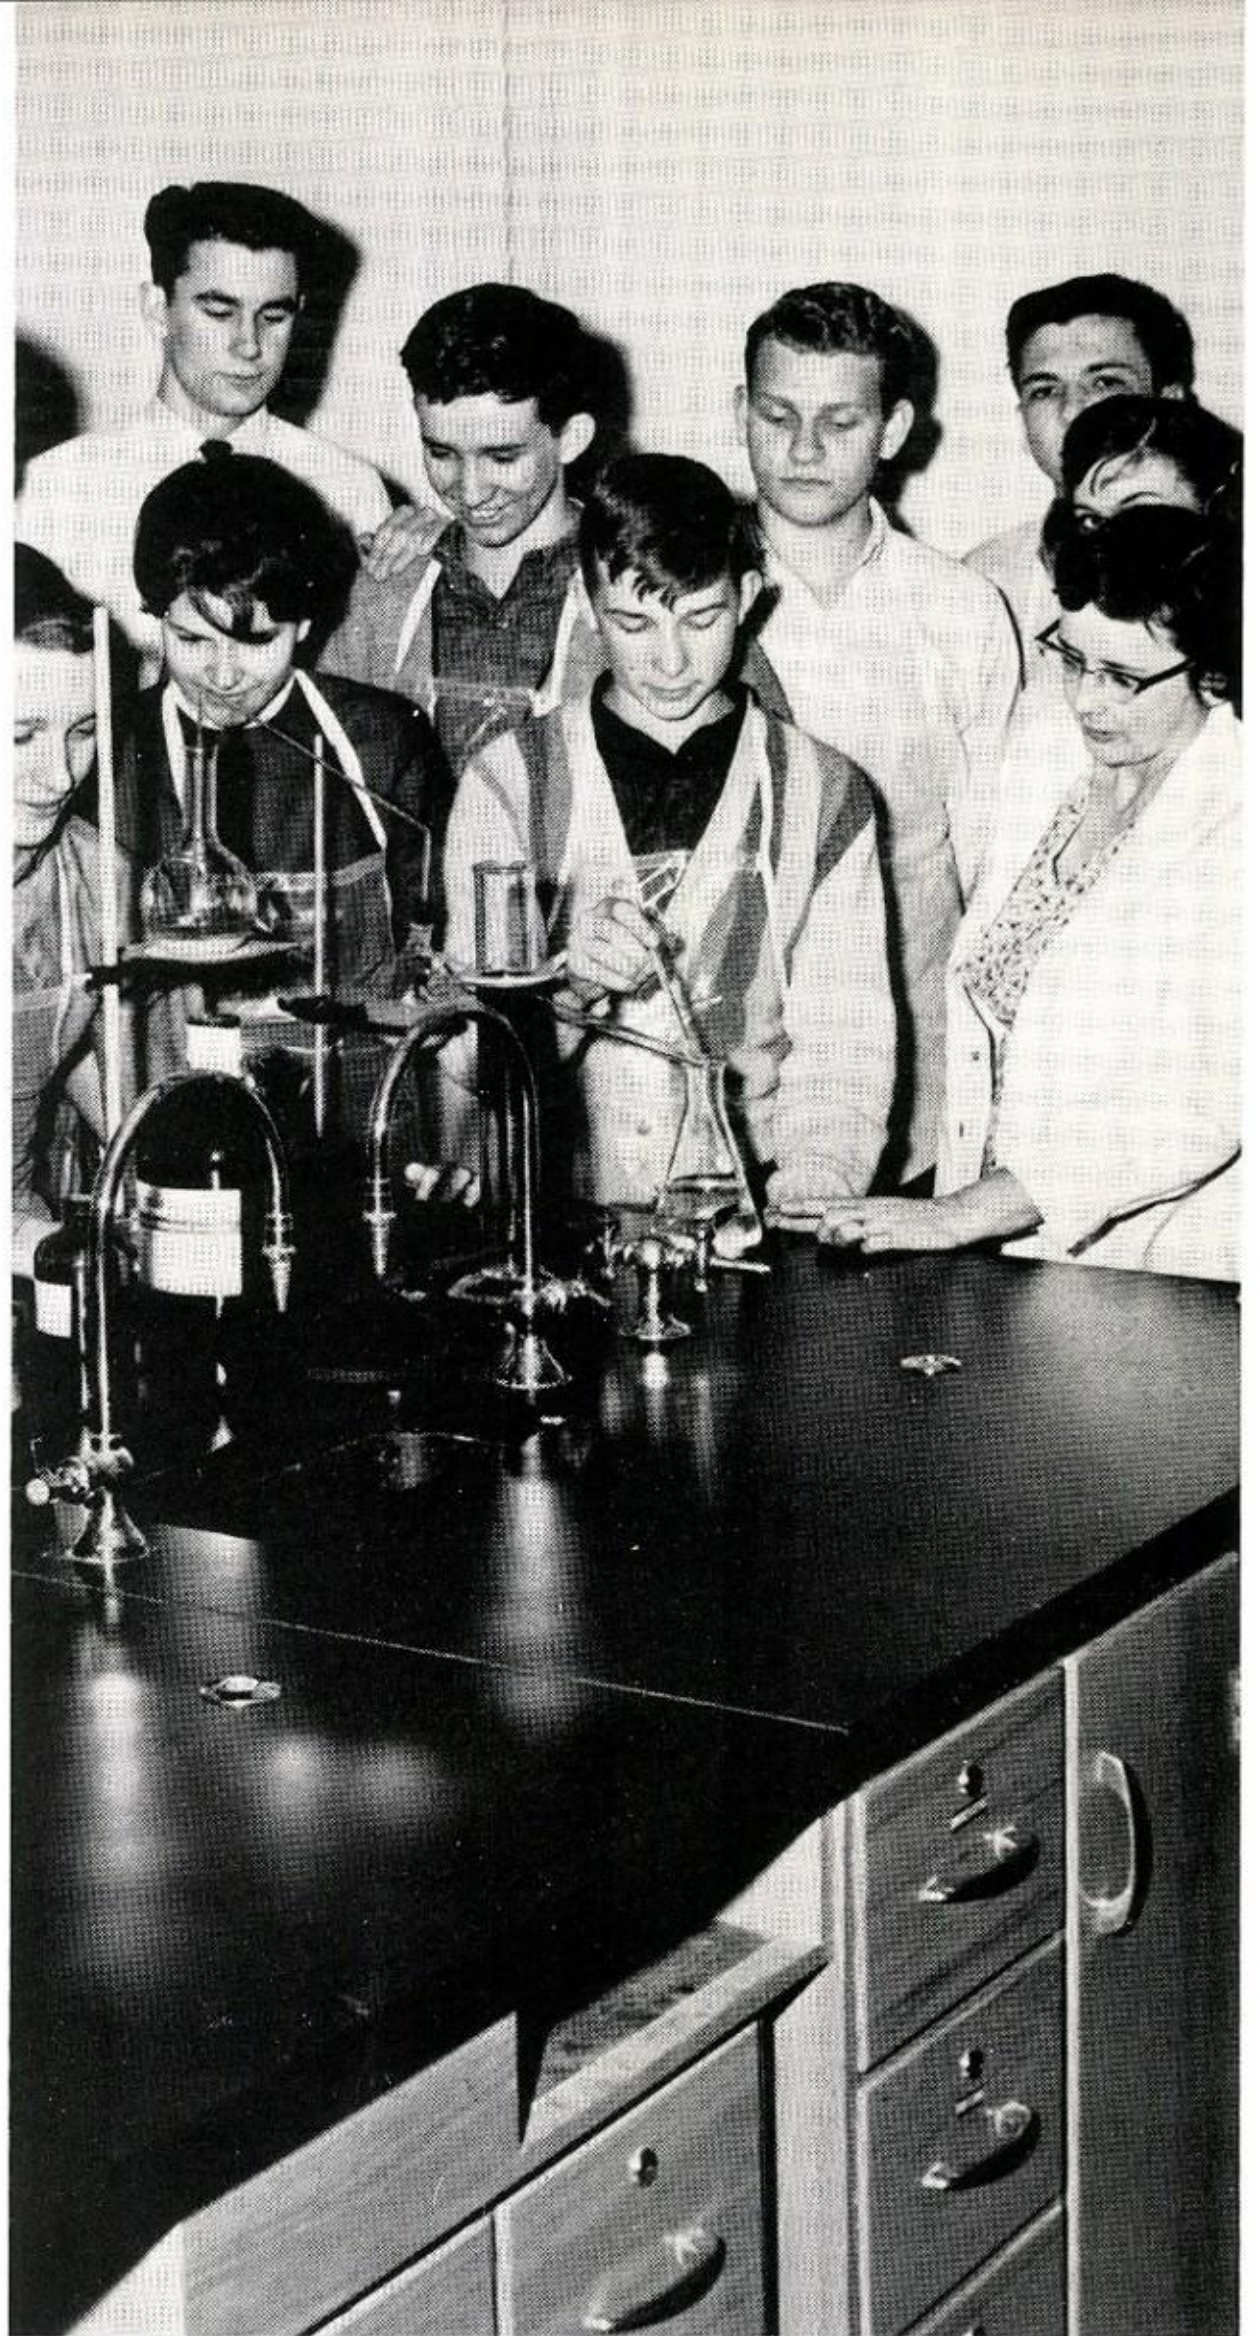

ADMINISTRATION

We're the Eisenhower . . .

... Eagle crowd ...

Board of Education

The Board of Education is charged with the responsibility of operating the public schools of Lawton. Their administrative officer is Mr. John Shoemaker, the superintendent of schools. He is concerned daily with the supervision of our school system. The students and faculty of Eisenhower can readily observe the efforts of Mr. Shoemaker, Mr. Bish, Mr. Elkins, and the members of the Board, as evidenced by recent bond issues. These appropriated the funds necessary for the completion of our beautiful auditorium and the new wings of our school. The Board of Education is composed of enthusiastic individuals working efficiently to maintain the best possible Lawton Public School System.

Principal

GLENN G. DOSSER
M.Ed.—Oklahoma University

Eisenhower Junior-Senior High School students are fortunate to have a man with the patience and integrity needed to establish and maintain a high standard of excellence. As principal, Mr. Dosser's constant dedication to Eisenhower has been observed by everyone. When faced with the task of establishing the standards of a newly constructed school, Mr. Dosser attempted this task with experience combined with enthusiasm. He has guided the students of Eisenhower in establishing levels of achievement which will be carried on in many years to come.

Assistant Principal

RICHARD A. NEPTUNE
M.Ed.—Oklahoma University

Mr. Neptune, working hand in hand with Mr. Dosser, has tirelessly strived to develop and uphold the ideals of Eisenhower. The discipline of the student body may be a frustrating chore, but Mr. Neptune realizes the problems confronting students. The students respect him for his willingness to correct any matters calling for discipline. We expect Mr. Neptune to continue his fine job as assistant principal and to strive for the most beneficial conduct for Eisenhower.

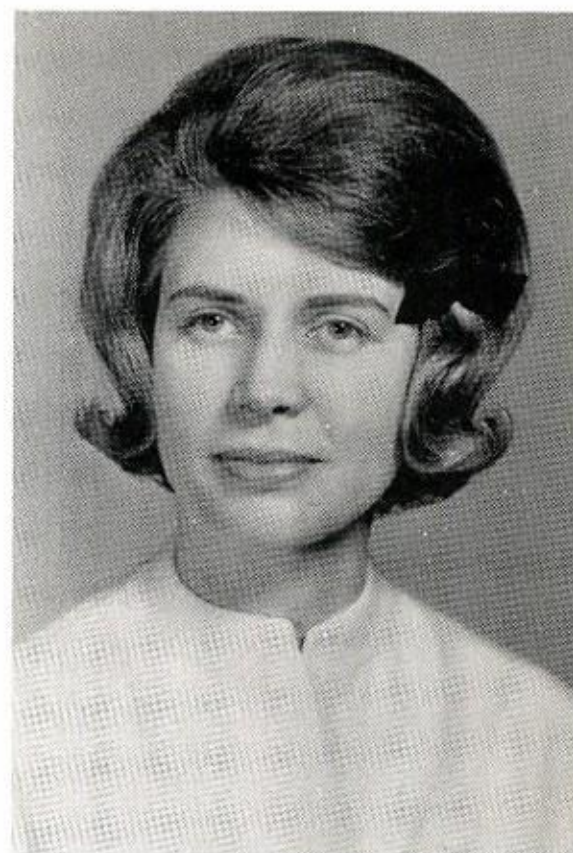

COUNSELORS

Each day brings us closer to the time when we shall be expected to assume complete responsibility for our lives. There are questions which we cannot answer and decisions which we quite often cannot make alone. Our counselors are here to help us. The students at Eisenhower would like to express appreciation for the contributions they have made to our lives.

OFFICE STAFF

Some of the most important activities of each day are to keep an accurate record of daily attendance and to maintain the financial records of the school. These responsibilities have always been diligently accomplished by our office staff.

From the first signs of dawn the members of our Eisenhower faculty begin preparing for each busy day. The students of Eisenhower realize the influence of our dedicated faculty on the spirit of our school in the academic work and the activities of each day. The students feel and appreciate the understanding of their teachers. This concern and interest in each student leaves lasting marks on all.

Cooks

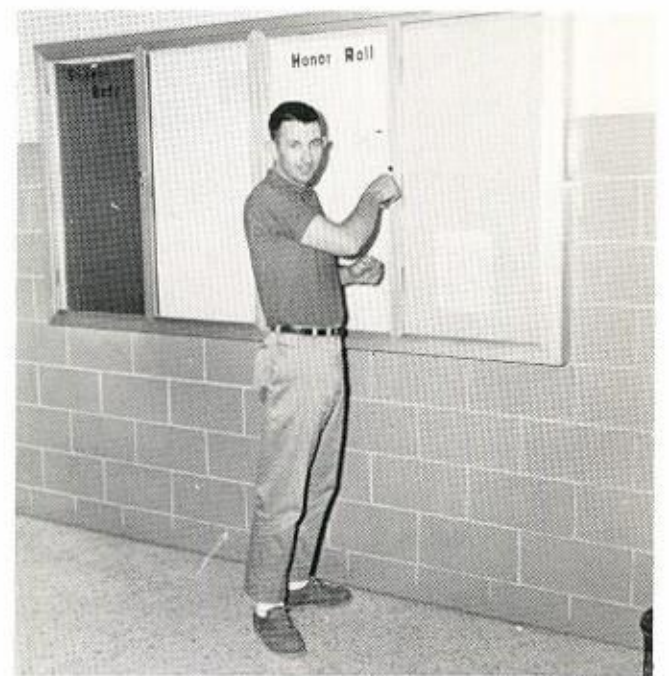

Our cooks arrive every morning, before many of the students, to begin preparation of our noon meal. Using their skill to the best of their ability, they are always prepared to serve a delicious, well balanced meal to the students and faculty of Eisenhower. We are greatly indebted to our cooks for their time and patience.

Alma Pahdoco, Cafeteria Manager

Custodians

The work of our custodians is an unending circle. Every afternoon at the termination of classes, they begin their tasks of keeping our building beautiful. Each day brings forth the normal clutter of school activities. On their jobs constantly, our custodians are commended for their fine job in keeping Eisenhower spotless.

The Student Council selected this design by Ted Ruybalid for the school victory flag.

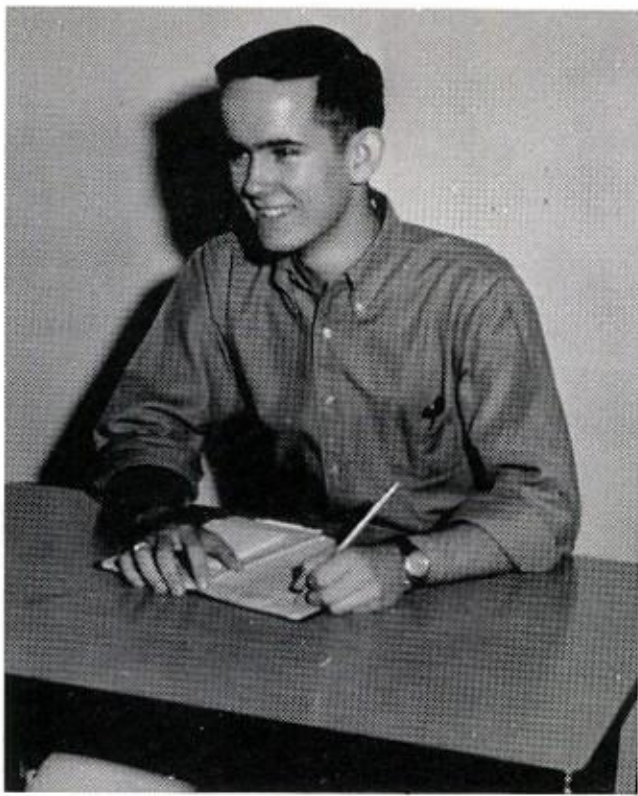

Every student in our school is offered an opportunity to take an active part in the government of our school through Student Council. Because of this we are trained to be better citizens of our democracy. Our Student Council has worked very hard to carry out their theme, "Success through Spirit and Friendship." They started the year off with much spirit and friendship by conducting Hi Week. Another aspect of friendship was displayed when they organized a program to welcome all new students who come to our school. The Student Council also gave time and energy to have many high school parties and to design a victory flag.

Student Council

At the state convention in Guthrie Eisenhower was elected as one of the schools in Oklahoma to send a delegate to the national convention in Maine this summer. Susan Jones will go to the national convention and represent not just the ideals of our Student Council, but the high standards of our whole school. The spirit and friendship continues as two students go with Mr. Neptune each week to the Board of Education to organize an intercity council which will consist of delegates from all public high schools in Lawton. Now we say thanks to the Student Council for having such a successful year.
